

Dear members and friends of ENETOSH

May we draw your attention to an excellent opportunity to involve especially young people into the upcoming XXI World Congress on Safety and Health at Work – Global Forum for Prevention, 3 – 6 September, Singapore?

Thanks to the ILOs SafeYouth@Work project young people can easily submit an entry for a contribution to the SafeYouth@Work Media Competition (deadline 30 June) and/or submit a candidacy as a Youth Champion to the SafeYouth@Work Congress (deadline 15 June).

Please spare a minute to think about a promising young woman or man who could bring the message of safety and health at work across to their national and international peers. If you don't have someone in mind, please disseminate this information to organizations with a direct access to young people like youth organizations, vocational schools, enterprises with apprentices and youth initiatives.

Don't miss the opportunity to promote the SafeYouth@Work Media Competition and the Safe Youth Congress on your website and in your newsletter and share the following links and material via your Blog, Twitter or Facebook account:
